- ▶ No setup costs
- ▶ US-based call centers

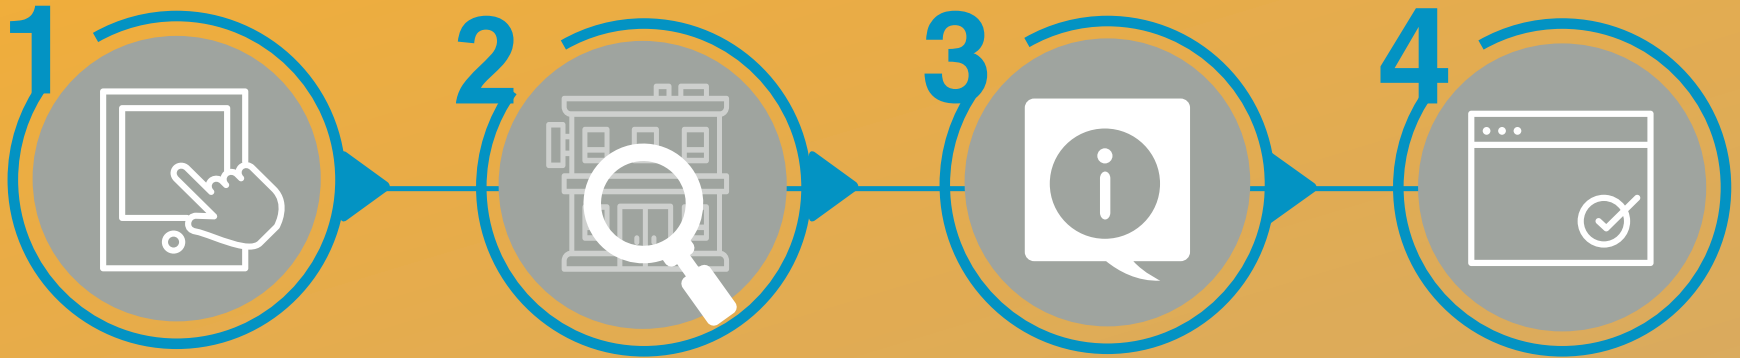

NCS WORKFLOW PROCESS

Place order
with NCS.

We verify
employer.

We verify
employment/income.

Return results
to client.

OUR MISSION

We commit to going beyond the expected by building a strong bond with our clients that delivers cutting edge risk mitigation solutions and superior support; ensuring efficiency, compliance, and trust.

Did you know close to 75% of all employment verifications must be completed via mail or phone?

Powerful databases exist for employment and earning histories, but they cover 25% or less of the U.S. labor force. These conditions make verification of employment a time-consuming, burdensome and expensive task that is well suited for verification focused solution providers like NCS.

NCS goes beyond the expected in delivering quality manual processes with an experienced customer support and operations team who measure the success or failure of each process.

NCS experts are well prepared and supported to complete any manual, automated or verbal verification with granular transparency throughout the VOE request's life-cycle.

“ 27% of employment and income applications contain falsified data. ”

SOURCE: Fannie Mae, June 2017 Misrepresentation Data Report

It is critical to consider a third-party service provider as a crucial piece of the lending puzzle in mitigating the threat of fraudulent information.
